> 2020/21

DACHTRÄGER • ROOF RACKS

Die sichere Basis • *A stable foundation*

Für Fahrzeugmodelle mit Dachrelingaufbau ist das Aluminium-Träger-System die perfekte Ergänzung. Durch die verschiedenen Längenmaße der Tragstäbe lässt sich das Trägersystem ganz einfach mit zahlreichen Fahrzeugmodellen kombinieren. Sollten Sie darüber hinaus auch über eine KAMEI Dachbox mit innovativem ClickFix-Befestigungssystem verfügen, wird das Ganze noch einfacher: Sie können die Box ohne jedes weitere Zubehör direkt auf dem Träger montieren. • The aluminium carrier system is the perfect addition for vehicle models with roof rails. Due to the different lengths of the supporting bars, the carrier system can be easily combined with numerous vehicle models. If you also have a KAMEI roof box with the innovative ClickFix fastening system, the whole thing becomes even easier: you can mount the box directly on the carrier without any further accessories.

Tragstäbe Typ 1 • Crossbars type 1
2 Stück, aus Aluminium • 2 pieces, made of aluminium
Max. Tragkraft • Max. load capacity 100 kg
Maße (L x B) • Dimensions (L x W) 1050 x 68 mm

0 47105 07

Tragstäbe Typ 2 • Crossbars type 2
2 Stück, aus Aluminium • 2 pieces, made of aluminium
Max. Tragkraft • Max. load capacity 100 kg
Maße (L x B) • Dimensions (L x W) 1150 x 68 mm

0 47115 07

Tragstäbe Typ 3 • Crossbars type 3
2 Stück, aus Aluminium • 2 pieces, made of aluminium
Max. Tragkraft • Max. load capacity 100 kg
Maße (L x B) • Dimensions (L x W) 1250 x 68 mm

0 47125 07

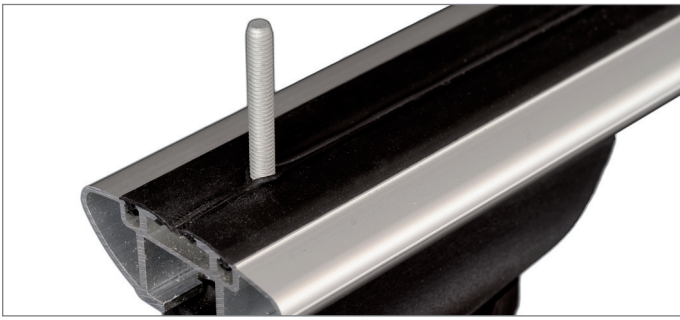

Tragstäbe Typ 4 • Crossbars type 4
2 Stück, aus Aluminium • 2 pieces, made of aluminium
Max. Tragkraft • Max. load capacity 100 kg
Maße (L x B) • Dimensions (L x W) 1350 x 68 mm

0 47135 07

Dachreling Fußsatz • Roof railing support feet
4 Stück, verschließbar • 4 pieces, lockable
Max. Tragkraft • Max. load capacity 100 kg
Für die Tragstäbe Typ 1-4 • For the crossbars type 1-4

0 47010 01

Zwei spezielle Gummi-Abdeckprofile sorgen bei der Dachboxen-Befestigung mit Schiebe-Adapttern für eine besonders schnelle und komfortable Montage auf dem Aluminium Träger. Dabei müssen die Gummi-Abdeckprofile nicht wie bei anderen Träger-Systemen üblich extra angepasst oder zugeschnitten werden. **Wichtig: Bei Dachboxen ohne ClickFix Befestigungs-System sind zur Montage auf dem Träger-System unter Umständen Schiebe-Adapter oder U-Bügel für die Befestigung notwendig. Die Breite der Nut für Adaptersätze beträgt 21 mm.** • Two special rubber cover profiles ensure particularly fast and convenient mounting on the aluminium carrier when fixing the roof box with sliding adapters. The rubber cover profiles do not have to be specially adapted or cut to size as is usual with other carrier systems. **Important: Roof boxes without ClickFix fastening system may require sliding adapters or U-bolts for mounting on the carrier system. The width of the groove for adapter sets is 21 mm.**

Dachträger Bestellbeispiele • Roof rack order example

*Audi A4 (B5), Avant, (5-Türer)
